3D LIVE SURGERY

Hall 8.1

Monday, June 18
2pm - 5.30pm

Open to all WOC registrants

The Barraquer Institute offers a 3-D Live Surgery event. We look forward to seeing you at this special event, which is one of the WOC’s most appealing sessions this year.
To make the most of your experience, we will also show some brief pearls in 3D captured in recorded surgeries:

Combined MIGS and cataract surgery. **Dr. M. I. Canut**

Presbyopia and astigmatism with femtophako. | **Dr. H. Carreras**

Femtolasik. | **Dr. F. Duch**

Keratoconus treatment with intrastromal corneal rings. | **Dr. J. Alfonso**

Argus II implant | **Dr. J. Nadal**

Experience cutting-edge surgery in real time. Watch and learn as expert ophthalmologists at Barraquer use the latest techniques and tools to conduct cataract, corneal transplantation, refractive, micro-invasive glaucoma, vitreoretinal, and other surgeries on real patients. An on-site facilitator will describe the procedures as they happen concurrently in two operating rooms, and attendees at the Fira Gran Via Convention Center will be encouraged to engage and ask questions.

For more information visit us at our stand. **Hall 7- Booth: 5063**
