Eligibility requirements vary for each fellowship. Please see the ICO website for eligibility requirements: [www.icoph.org/fellowships](http://www.icoph.org/fellowships).

The following requirements generally apply to both fellowship opportunities:

- Applicants must be under 40 years of age at the time of applying.
- Residency training must be completed before applying.
- Specialist exam in ophthalmology must be successfully passed.
- Applicants must return to their home countries after the training.
- Applicants must be reasonably fluent in the language of the fellowship training center.
- Applicants who have passed the respective Foundation Formative Assessments, ICO Basic Science, the ICO Clinical Sciences, or the ICO Advanced Examinations for Ophthalmologists ([www.icoexams.org](http://www.icoexams.org)) will receive special consideration.
- Applicants from countries with ophthalmologic societies that are Members of the ICO will receive special consideration.

Support ICO Fellowships

The ICO Fellowships Program is supported by funds from the ICO and generous private donations, industry, nongovernmental organizations (NGOs), foundations, and ICO Member societies.

If you wish to support the ICO Fellowships Program, please email info@icoph.org. We would be happy to discuss donation options. You may also make an online contribution through the ICOFoundation website: [icofoundation.org](http://icofoundation.org).

COVER PHOTO: Dr. Deemah Abokwidir from Syria trained in pediatric ophthalmology, strabismus, and ophthalmogenetics in Munich, Germany. Dr. Abokwidir is pictured with her supervisor, Professor Oliver Ehrt, and a patient. Dr. Abokwidir’s host was Professor Anselm Kampik.
The International Council of Ophthalmology (ICO) Fellowships Program was organized to help promising young ophthalmologists from developing countries improve their practical skills and broaden their perspectives of ophthalmology. Fellows are expected to bring the acquired knowledge and skills back to their home countries and take part in programs to preserve vision and prevent blindness.

**ICO Three-Month Fellowships**

These fellowships provide young ophthalmologists from developing countries with exposure to and training in several subspecialties in ophthalmology. The fellowship is intended to be flexible to meet the needs of different countries and individuals. Fellowships are supported by funds from the ICO, International Ophthalmological Fellowship Foundation (IOFF) e.V., private donations, industry, nongovernmental organizations (NGOs), and ICO Member societies.

Approximately 60 ICO Three-Month Fellowships are awarded each year. The application deadlines are March 31 and September 30.

Learn more: [www.icoph.org/ICO-Three-Month](http://www.icoph.org/ICO-Three-Month).

**ICO-Retina Research Foundation Helmerich Fellowships**

This fellowship provides support for one year of ophthalmology subspecialty training. Fellowships are awarded to young ophthalmologists from developing countries who are committed to enhancing ophthalmic education and patient care in their home countries. The fellowship honors Mr. W. H. Helmerich III and is sponsored by the Retina Research Foundation in cooperation with the ICO Foundation.

Two ICO-Retina Research Foundation Helmerich Fellowships are awarded each year. The application deadline is September 30.

An applicant's eligibility must be determined by the ICO Fellowship Executive before they may select a host. Once the applicant is deemed eligible for their selected fellowship, the online application system will allow them to select and apply to a Host Training Center.

**Online Application**

Fellowships cannot be fulfilled in the applicant's home country.

Please visit the ICO website to create an account and view the online application. Applicants must create an account through the ICO website.

Online application: [www.icoph.org/application](http://www.icoph.org/application).

The Frequently Asked Questions (FAQ) page provides answers to questions about the application process and fellowship program.
