

**Ten Items the Mexican Government Will Support
Following World Sight Day 2014:**

1. National Registry System of eye diseases.
2. Measurement via Rapid Assessment of Avoidable Blindness (RAAB) methodology.
3. Refractive error screening in the pediatric population.
4. Adult screening for refractive errors and cataract.
5. Screening and treatment of diabetic retinopathy.
6. Screening and treatment of retinopathy of prematurity.
7. National registry of cornea transplants.
8. Medications and equipment needed for treatment of eye conditions.
9. Generating demand for planning and allocation of resources in Ophthalmology.
10. Certifying process of trachoma and onchocerciasis elimination.
